GRENEED Newsletter

December 2017

## GRENEED welcomes twelve (12) new students to the Programme.

Since its initiation in 1996, GRENEED has been assisting students from both secondary and tertiary level educational institutions. This year was no different. GRENEED continues to support students from 7 Secondary Schools in three parishes, College and University.

After being interviewed by members of the GRENEED board on August 18th 2017, twelve (12) students were awarded a scholarship and the remaining seventeen (17) GRENEED scholarships were renewed.

Each student received a yearly scholarship of one thousand five hundred dollars, (\$1,500.00), towards meals, transportation, tuition and other necessary school supplies.

Given our mission and vision GRENEED seeks to create leaders amongst its students; to do so GRENEED carefully look at each students needs apart from finances. On Wednesday, December 13th 2017, students came to do their performance review; we had averages as high as 89.0 from Form 1 to 5. The Chairman of the Board was very pleased to have seen such great results, other members of the Board was Ms. Gloria Thomas and Leadership Development Training Coordinator Ms. Abena Vincent, were the facilitators for that session. GRENEED is very pleased to have so much success in the first term of the school year where students are usually just starting to settle down in their new forms.

Scholarship performance review 2017 with Gloria Thomas, Board of Directors

The Scholarship Programme is in its 21st year. Participating students come from St. Andrew's, St. David's and St. Patrick's. They attended schools in these parishes, including other schools in the St. George's area. This Scholarship Programme is GRENEDE's flagship and has graduated scores over the years. It is funded strictly on a volunteer basis by donations.

GRENEDE continues to need your financial support to be able to continue these direct awards in order to support at least 28 students for the academic year 2017-2018.

### **Five of GRENEDE's Students** **Graduated From TAMCC**

GRENEDE is overjoyed to have had five (5) students graduating from the T.A. Marryshow Community College with Grade Point Averages (GPA) as high as 3.15.

On the secondary level only one student were at that class who graduated and obtained eight (8) out of nine (9) CXC passes including Mathematics.

# GRENEED's 2017 TAMCC GRADUATE REPRESENTS GRENEED IN BRUSSELS, BELGIUM

GRENEED's 2017 TAMCC graduate Charmaine Joseph attended Global Science Conference in Brussels, Belgium, 3rd -25th October, 2017.

GRENEED's 2017 TAMCC graduate Charmaine Joseph returned to Grenada after participating in the inaugural Global Science, Technology and Innovation Conference Series, G-STIC.

Charmaine accompanied Dr. Dessima Williams for the 3-day event at which she was an invited speaker at the October 24th celebration of the 72nd anniversary of the United Nations founding.

They both participated in various session-circular economy, agro ecology, oceans and more.

GRENEED is proud of Charmaine who conducted herself with calm, strength, dignity and interest, making new associations among the global youth presence as well as senior officials at the meeting. It was her maiden event on many fronts, but she was a good representative of GRENEED.

Our goal is to take our scholars and graduates into a world full of potential for them and for our organization and for Grenada.

Charmaine had an opportunity to meet with Her Royal Highness, the Princess of Oman, as well as students from Kenya, France, Portugal, India and elsewhere. I believe she was the only Caribbean youth present.

Despite funds not being raised for GRENEED, they did raised GRNEED's profile and the profile of one of our leading youth.
